ABOUT ME

I'm a Senior Android Developer with over 6 years of hands-on experience in building, optimizing, and maintaining high-quality Android applications. With a total of 8 years in IT, I have a strong background in software development, design patterns. My expertise spans across Kotlin, Android SDK, and modern development frameworks. I am passionate about constantly staying updated with the latest Android trends and best practices.

SKILLS

- Java / Kotlin
- Android SDK
- RxJava / Coroutines
- Dagger
- Networking (REST, Retrofit, Gson)
- Architectures (MVP / MVVM / MVI)
- GitHub/Bitbucket/Gitlab
- Design Patterns
- Android Jetpack (LiveData, Room, ViewModel, Databinding)
- Firebase (Analytics, AB Testing)
- Instrumental tests (Espresso)
- Unit tests (JUnit, Mockito)
- OOP and SOLID principles
- Jira
- Experience in Scrum projects
- Jetpack Compose

EDUCATION

Master of Computer Science
Cracow University of Economics
(2018 – 2020)

Bachelor of Computer Science
Cracow University of Technology
(2014 – 2018)

EXPERIENCE

HL Tech (Hargreaves Lansdown)
Senior Mobile Software Engineer (XI 2022 – present)
Mobile Software Engineer (V 2021 - XI 2022)

Member of a feature squad team for British fintech Android application. Responsible mainly for building new features for regulatory compliance, but also involved in refactoring and general maintenance of the application. Worked in a well-organized scrum team.

Telemedi.co
Android developer (III 2019 – V 2021)

100% remote Android developer in charge of: - choosing proper tools and applying solutions for complex business problems - developing medical applications connected with bluetooth devices, video streaming and online payments - creating both applications from scratch and maintaining current systems used by thousand of users

Altconnect
Android developer (I 2018 – III 2019)

Developing native Android applications using Java and Kotlin with the help of libraries such as: RxJava, Dagger, Retrofit, Room. I was working on some small projects (alone or in smaller team of developers). I have commercial experience with apps connected with Google Maps, integrating mobile web shops, creating offline - first apps, chat apps and more. I was also a member of a bigger international project connected with Camera API.

Ready 4S
